

What's on UR phone? (Christmas version)

Description: Racing against the clock, participants will rack up points for Christmas-specific items found on their cell phone. Directions included for individual or team play.

Group size: 6+

Time needed: 10-20 minutes

Supplies:

- One "What's on ur phone?" sheet per person or per team
- Pencils/pens
- One personal smart phone per person or team (see notes)

Instructions:

1. Say to the group, *"We'll be going 'high tech' with today's game! Each person/team will have to quickly search their smart phone for a wide variety of Christmas-related photos, apps, texts, and more. For each item that fits the category listed you'll get one point. The person/team with the most points will be crowned the winner(s)."*
2. Distribute the worksheet face-down.
3. Give the group the time limit (somewhere between 5-10 minutes depending on your schedule).
4. On "go" give everyone 5-10 minutes to record their points.

Winner: When time is up have everyone tally up their points and give the winner(s) a small prize or let them choose something from your Door Prize Basket.

Tips:

Before playing you'll need to figure out if everyone in your group has a smart phone. If not, then you'll need to play this game in teams. For smaller groups you could play in teams of 2. For larger groups, have them work together at their table or in groups of 4.

You want them to rush – some will be savvy and will look over the worksheet realizing that the time given will not be enough time to complete the whole worksheet. You can clue them in that they may want to look over the sheet and be strategic about which items they search for first.

This is a great game to play when you want to engage multiple generations. Many of your older women may not have a smart phone and if they are competitive they'll want to partner with the younger women in the room with the assumption that they'll be the most tech-savvy.

What's on ur phone? Christmas Version

Give yourself 1 point for each item found on your phone.
